Customer Reviews

The final book of the trilogy, The last ever after continues where book 2 has left where Agatha and Tedros were whisked away to Gavaldon, while Sophie and the School Master were left behind in the woods. I'll take this opportunity to gush out on how awesome and glorious this book was! And it took me 9 hours straight to finish it (minus the toilet breaks!) The last ever after has sent me to an emotional roller coaster ride that after I finished, I actually felt quite exhausted from using up so much emotions in one day. But seriously, I LOVED THIS BOOK (even though it's aimed for middlegrade readers and I'm probably already too old for this. But I don't care!) Soman Chainani did a good job at magnifying the awesomeness of the series to the highest possible level. He definitely "Ended it with a BANG!" Unlike the first two books, there's more action, suspense, drama, angst,

mystery, comedy and romance in this one. Yay! Sophie, while being the antagonist (and also the protagonist) of the story, you can't help but not hate her for her decisions and the things she did. You can actually relate with her inner struggles where she tries to prove that she's really good. That she only wanted a happy ending, just like her bestfriend, Agatha. And she found it in our very handsome and drool-worthy school master (who was described as someone who looks like Jack Frost, and who doesn't love him?!). Rafal (aka the School master), who is considered the master of evil in the story, is actually very human who only wanted to find love. His Never After. I find myself hating Sophie in some parts of the story, but at the same time, I'm also rooting for her so she can find her happy ending.

Review: Protagonists: So after the shocking ending of *A World Without Princes* Sophie and Agatha are split up and now seem to be on opposite sides. The character development of these two is very interesting. Sophie, as usual, still struggles with her vain entitlement, feeling that she's owed certain things, or that she's better qualified simply because she wants them. This happens to be one of the reasons I despised her in the second part of this book, I mean, I know she's supposed to be evil, but there's a limit when it's a character I should be in some way rooting for. However, over the course of the book she struggles with finding who she is. Agatha also struggles with figuring out not only who she is but who she wants to be, specifically whether she should be the future Queen of Camelot. She still can't quite see herself as the wonderful and selfless person she is, still focusing on how she appears to others upon first impression. Even though both these girls are still struggling with things they've struggled with in the previous books, Agatha's struggles seem so much more realistic and sympathetic, as opposed to Sophie who just seems as pig-headed as ever. Then we have Tedros, the boy who has come between Sophie and Agatha many times, and who I've held a well known ire for. In fact in my review of the first installment in this series, I really hated him, never expecting that I would root for him even the slightest amount in the next book, and by the last finding him one of the best developed characters I've ever read. His development in this book is no different, there are demons in Tedros' past that come back to haunt him and I found he handled them excellently. **Romance:** The romance in this book is spectacular. mainly because there's so much doubt with all the characters.
