Customer Reviews

My daughter is a first year clarinet player in middle school and she is enjoying the wide range of music in this book.

The solos in this book are easy to play which is what I need as a beginner/intermediate clarinet player. I like the variety of songs as well as the arrangements. I give it five stars and would recommend this book to anyone who plays clarinet.

I played clarinet for a few years in high school and was hoping for some music to re-learn playing clarinet. the solos in this book were mostly too easy - not 'solos for players of all levels'. I was hoping for something that was a little more challenging and songs that were a little more interesting and less common.

My 12 year old granddaughter has really enjoyed this gift. She is in her 2nd year of playing clarinet in band and was able to play many of these songs by sight reading. Would be perfect if it also had the lyrics. Although it was pretty expensive, I would pay for it again in order to get the lyrics so family members could sing along when she plays familiar tunes.

This was purchased for my fifth grade granddaughter in first year band. We are pleased with the song selection and the manner in which the book increases in difficulty from easy to more advanced. The songs are also familiar songs, which helps in her desire to learn them. We were delighted to learn that some of the songs are the same as the ones from 100 Solos for Flute, which her sister has. This way they have been able to select songs for duets on their instruments for church. There are also secular songs which are alike in the two books which they enjoy practicing together for fun. I feel that this was an excellent choice to increase her desire to practice and play her clarinet.

This is a really fun book with SIMPLE melody lines for Clarinet. It has a lot of show tunes, and widely recognized songs. There's something for everyone in this book. I love it!

Excellent book for users of all levels. As a beginner I was able to use, understand, and move through the book as far as playing music. My husband who is more experienced also enjoyed and felt the book was useful for his needs. Book was in excellent condition when received.

Our 12 y/o daughter is a first-year music student. I purchased this book half way through the year as a Christmas gift for her. At first it was too difficult for her, but within a few months she had learned how to play several of the songs in it. She loves the book now, and it challenges her much better than her own school music book. I would recommend this book to friends.
