Customer Reviews

The book arrived brand new and arrived fine, however I did not receive a "code" card so that I can access online homework assignments and quizzes. I now have to pay \$50 to access this from the book company.

Overall, the book was in very good condition. One word of caution. If you have a class that requires you access the lessons on-line, you will need a code. The used copy does not have it, only the new one. Otherwise, it costs around \$90 to access the on-line materials if you do not have the code.

As far as textbooks go, this one is one of the easier ones I have had to read. There are many

pictures, models, and real-world examples interspersed throughout (which you do or do not have to read), and the book becomes relatively interactive. As far as the subject matter goes, it is definitely all general, but it is coherent. Obviously buy this if you have to for a class.

For a textbook, this is a pretty entertaining read. Lots of real world examples (many very current) to keep the reading from getting too dry. My class didn't require using the online materials, so I can't comment on those.

Awesome source of information. Even though it is a rental, I received a completely new book. Will rent books again and will recommend it if you need a book for college without breaking your pocket

Marketing, for many can be boring, but this textbook has great insight on how marketing really works. Really easy to understand. The book was in great condition and delivered on time!

It turned out it was the wrong edition. My school is using the 3e edition and it really is more than just an extra chapter that is different.

As much as you can love a textbook
