Customer Reviews

the book is great Suzuki is great, however this is a revised edition and they don't say that. I was using this for a competition where my son had to give a 2nd copy of the song to the judges and there was one rest in the song that was not in his original edition. I don't think it ended up mattering but it would have been nice to know there was different editions. all in all this probably doesn't affect most people so it's not such a big deal. live the songs and the book.

Wonderful book for intermediate/advanced violist. I was worried that this book would be more on the beginner spectrum of books by the preview. Luckily, the previews were of the warmups and the rest of the songs are of a more intermediate level. There is a good selection of songs that are not too challenging or easy making this the just right book for the intermediate level I like to play for auditions.

I think it's nice that Suzuki put together these 'portfolios' of music, but I find the books woefully short on technique. So I supplement with a lot of technique and use this for the solo pieces. I wish he had put more technique into the method just because everyone is so excited over the method.

Just what the Suzuki teacher wanted. Arrived promptly.

It's not for me it's the one with the school requested it must be pretty good because that's the one they want

Great choice of pieces. Needs supplementation with technical studies.

Private lesson teacher recommended. Bought this for my son
