Customer Reviews

The author of this book is awesome. I assumed that I would be reading yet another boring and

confusing legal book for my Contract Law class. Not so, this guy is clear and concise, and provides a plethora of examples for what he is writing about. If this author wrote all my legal books I'd be loving my legal studies sooooo much more!

Interesting, well written book containing numerous, up to date examples of contract law. Be aware that your individual state may have additional rules regarding contract law in addition to the ones cited in the textbook, so additional research may be warranted. Most of the other people in the class seemed to like the book, too. As soon as the class was over, I posted it for sale here and it sold within a week.

Well organized book. Useful information. Recommend for students in a paralegal program. Chapters are summarized at end of each chapter which is very helpful. Interesting cases presented in book.

Some of the textbooks I have purchased for my Paralegal course are very wordy. Not this one. I love the brief but detailed explanation of laws then examples. Love this book!

Book is OK, after all is class requirement... but information/learning process through the book... it wasn't wow information, just another one more!

Excellent book for students at the beginning level. Clear language, great examples and easy to understand. I recommend it to paralegals.

great book to have as a paralegal. Everything you need to know for understanding contracts, from making one to interpreting one.

This book is for school and from what I have seen so far it is clear and written well. It is easy enough to follow and read.
