Customer Reviews

This product arrived within a few days of ordering. It was in pristine condition. I use this set of books because they are what my piano teacher prefers to teach from. Although the book says for later beginners, it should be a bit more specific. It is definitely not designed for adult learners (the songs are geared more toward children or adolescents). I do not mind so much, but others might. All in all a great buy. I recommend the seller. Delivered as promised and had a very accurate description of product. I am very pleased.

Got this for my kids 6yrs and 11 yrs who have never played before. They are doing great with these books and this one in particular is one that teaches with easy to comprehend methods. I do feel like it could have been written better for quick learners, but still a great book for the price.

My daughter has really enjoyed these books. She spends lots of time using them to continue growing and becoming more and more advanced.

I am a piano teacher and have used this book series for boys starting piano at ages 9 and 10. It is perfect for this age level and gender.

Very nice instructional book. I am pleased and proud to provide these to my students. I will buy these in bulk.

Kids say they are fun and easy to work with. They also progress nicely from simple to more difficult!

Good exercises that match with concepts taught in the Alfred's Basic Piano Lesson, Bk 4.
